

Worldwide Virtual

2026 Website Update First-Time Login Instructions

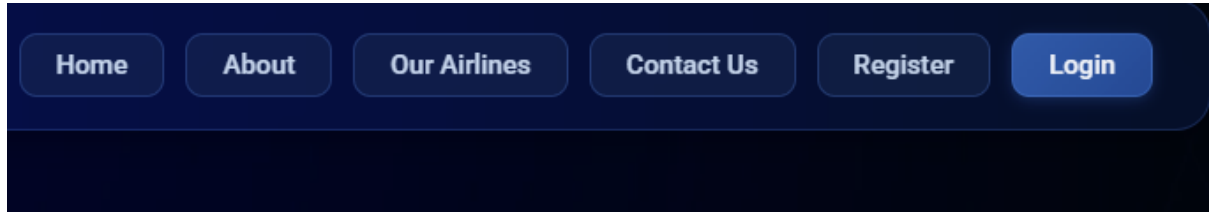

January 2026

Who is This Guide For?

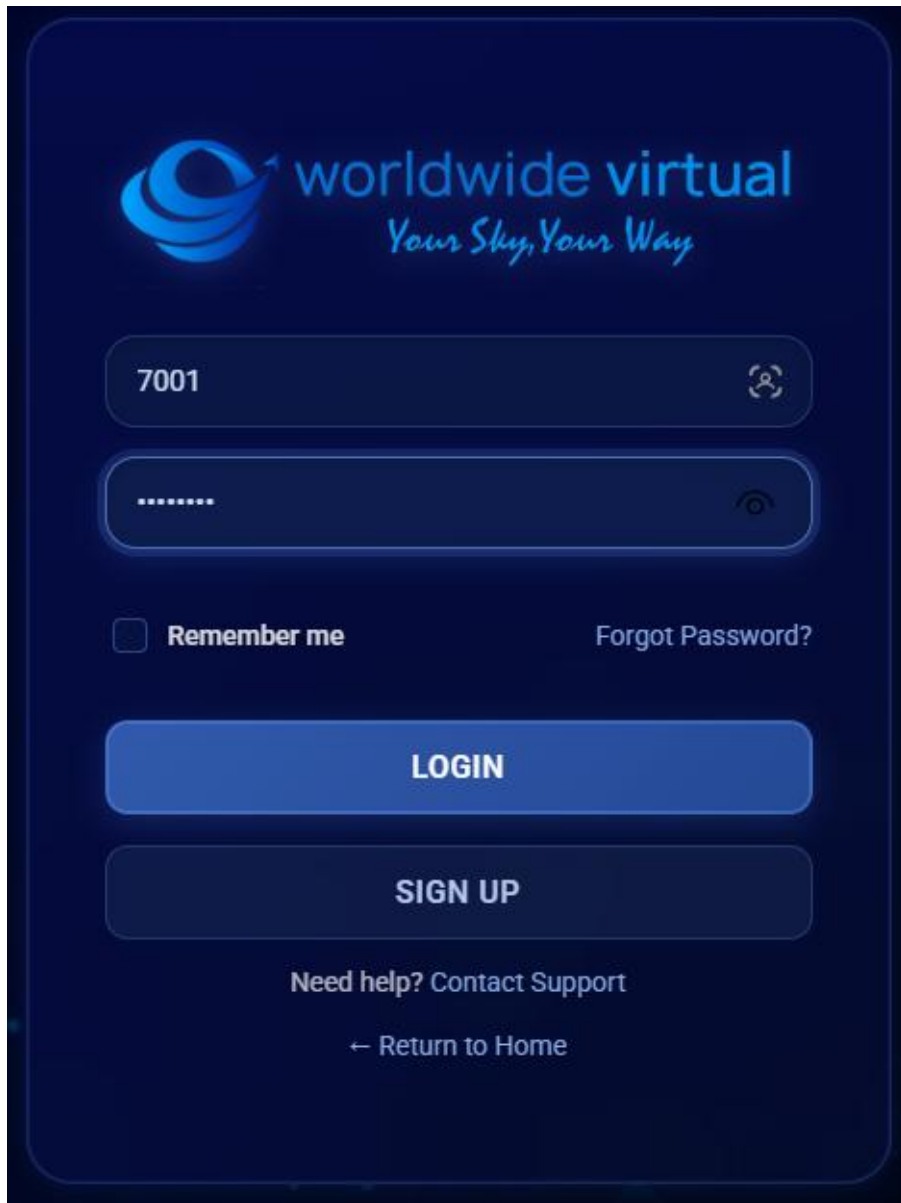

This guide is for all current pilots accessing the new system known as VirtualAero for the first time.

Logging In

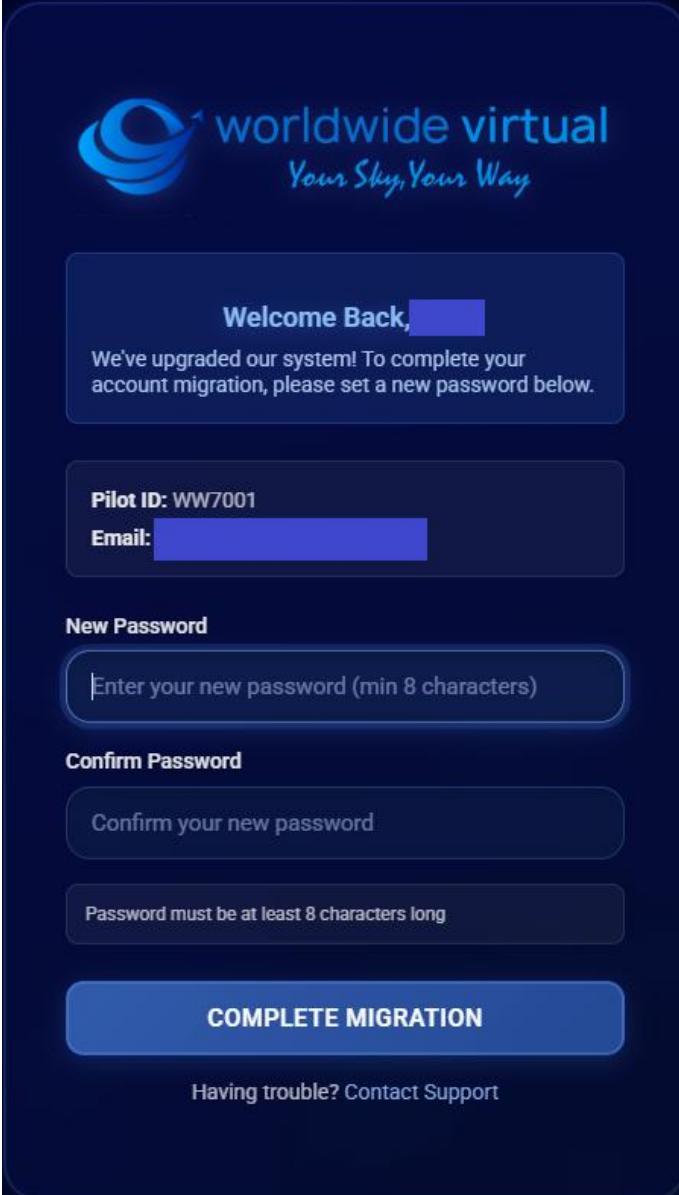

To login to the website, at the top right, you will see the login button. Click that.

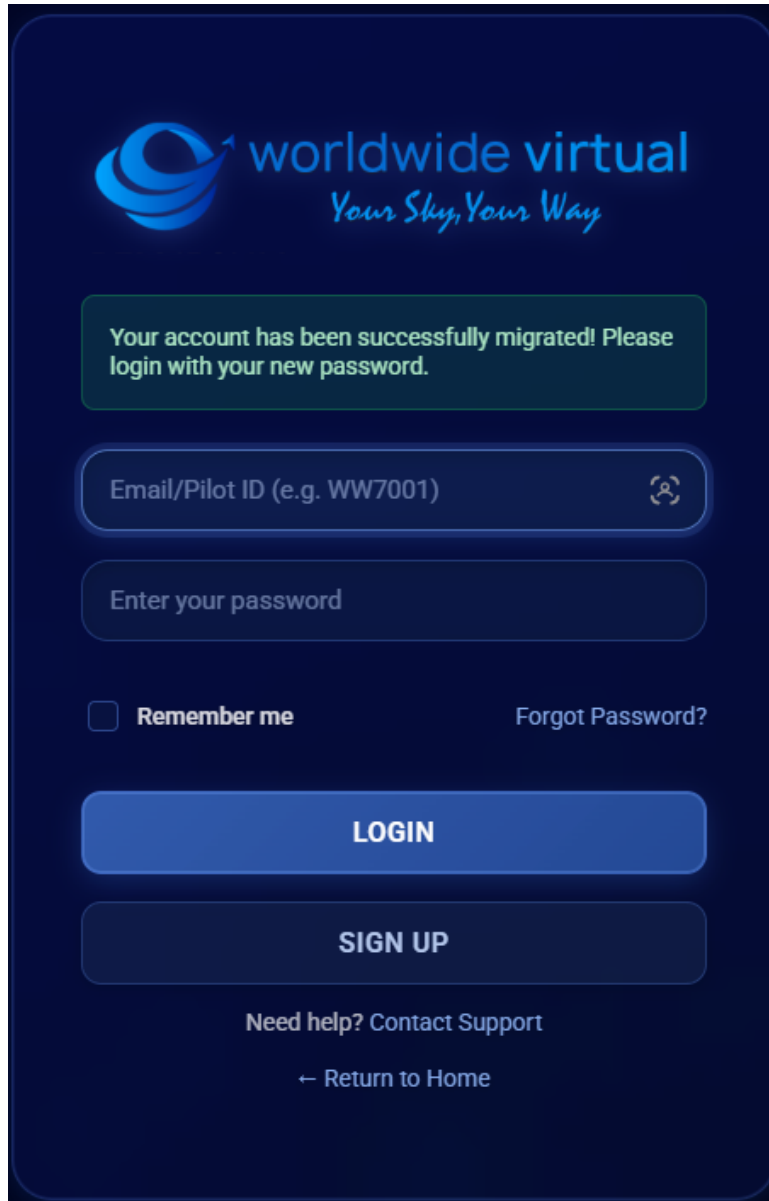

For first time logging into new website, for existing pilots, use your current credentials that you use for the old website. Your username can either be your Pilot ID (e.g. 7001), Pilot ID with WW in front (e.g. WW1000) or your email.

The image shows a login page for 'worldwide virtual' with the tagline 'Your Sky, Your Way'. The page has a dark blue background. At the top is the logo, which consists of a stylized blue 'C' shape with an arrow pointing upwards and to the right, followed by the text 'worldwide virtual' in a sans-serif font and 'Your Sky, Your Way' in a script font below it. Below the logo are two input fields: the first contains the text '7001' and has a small icon of a person with a plus sign; the second contains seven dots and has an eye icon. Below these fields are two links: 'Remember me' with an unchecked checkbox and 'Forgot Password?'. There are two large buttons: a blue 'LOGIN' button and a dark blue 'SIGN UP' button. At the bottom, there is a link 'Need help? Contact Support' and a link '← Return to Home'.

Next you will see the Welcome Back screen. We require you to update your password on first login. It needs to be at least 8 characters (no restrictions). However, we strongly recommend not using a password you have used at Worldwide Virtual before. Nothing to be alarmed about, we just like good security practices!

The image shows a mobile app interface for Worldwide Virtual. At the top is the logo, which consists of a blue circular icon with a stylized 'W' and the text 'worldwide virtual' in a sans-serif font, with the tagline 'Your Sky, Your Way' in a script font below it. The background is a dark blue gradient. Below the logo is a white rounded rectangle containing the text 'Welcome Back, [redacted]' in bold, followed by 'We've upgraded our system! To complete your account migration, please set a new password below.' in a smaller font. Below this is another white rounded rectangle containing 'Pilot ID: WW7001' and 'Email: [redacted]'. Underneath is a section titled 'New Password' with a text input field containing the placeholder 'Enter your new password (min 8 characters)'. Below that is a 'Confirm Password' section with a text input field containing the placeholder 'Confirm your new password'. A small grey rounded rectangle below the confirm field contains the text 'Password must be at least 8 characters long'. At the bottom is a large blue rounded rectangle with the text 'COMPLETE MIGRATION' in white. Below that, in a smaller font, is the text 'Having trouble? Contact Support'.

If it worked, you should see a success message. Now use your new password to login. Highly recommend using your **email address** here just in case your Pilot ID changed during the migration (mainly for pilots who haven't flown in 12+ months).

A screenshot of the Worldwide Virtual login page. The page has a dark blue background. At the top, there is a logo consisting of a stylized blue 'W' and the text 'worldwide virtual' in white, with the tagline 'Your Sky, Your Way' in a script font below it. Below the logo, there is a green-bordered box with white text that reads: 'Your account has been successfully migrated! Please login with your new password.' Underneath this box are two input fields: the first is labeled 'Email/Pilot ID (e.g. WW7001)' and the second is labeled 'Enter your password'. To the right of the first input field is a small icon of a person. Below the input fields, there is a checkbox labeled 'Remember me' and a link that says 'Forgot Password?'. At the bottom of the form, there are two buttons: a blue 'LOGIN' button and a grey 'SIGN UP' button. Below the buttons, there is a link that says 'Need help? Contact Support' and another link that says '← Return to Home'.

Please be patient for the first login, it might take a few moments as the system does some work in the background. This only happens once and should be good going forward.

Upon logging in you will be presented with the following message including your Pilot ID. You will need to download the new ACARS applicable for your simulator/windows version. You can do this by going to Downloads. If you aren't ready to yet, just click I'll do this later. This will only appear once if you select any of the buttons.

Welcome to Worldwide Virtual!

Ready to take to the skies? Let's get you started!

Your Pilot ID is **WW7001**

You can use this ID or your email to log in. If your Pilot ID has changed due to previous retirement, please contact the admins.

Download ACARS to Get Started

To track your flights and file reports, you'll need to download our ACARS software. ACARS automatically tracks your flight data and submits reports when you land.

[↓ Go to Downloads](#)[I'll do this later](#)

You can always access downloads from the main menu at any time.

If you were “retired” (e.g. no flights for over 12 months), then your Pilot ID may have changed. We do have ways of changing it back, just contact an admin on discord (fastest) or via the contact form.
